Benefits

## The most affordable and functional Warehouse solution for SAP® Business One.

Today almost no one doubts that a company must have a warehouse management system in real time. WMS works in real-time, allowing certain operations to directly save costs. The operator does not need to move to get authorization for the next task, nor to confirm actions nor to register any incidents.

Cost savings depend on the difference of operation before and after the implementation of a WMS, but for a conventional warehouse, there is widespread criteria of 25 % of direct cost savings in staff. Direct cost savings translate into a reduced need for investment or increased capacity.

## Quality Service

A **WMS** helps improve the quality of service. Quality of service involves the proper treatment of the principles of rotation or maintaining traceability, accuracy on the goods served, or reliability in delivery times that allows for quality commitments with customers.

A warehouse management system in real time tells us whether it is necessary to invest in resources, reduce logistics costs or to improve customer service

The screenshot shows a software window titled "Datos maestros de ubicación". At the top, there are five dropdown menus for "Almacén", "Piso", "Pasillo", "Columna", and "Fila", with values 05, 01, 02, 01, and 10001 respectively. Below these is a text field for "Código de ubicación" containing "05-01-02-01-10001".

The main area is divided into two columns of fields:

- Left Column:**
  - Inactivo
  - Ubicación receptora
  - Descripción: [Empty text field]
  - Número de artículos: [Empty dropdown]
  - Código de clasificación alternativo: [Empty text field]
  - Cantidad mínima: [Empty text field]
  - Restricciones de artículo: [Artículo específico]
  - Restricciones de lote: [Ning.]
  - Restricciones de transacción: [Ning.]
  - Velocidad: [Empty text field]
- Right Column:**
  - Restricción entrada a ubicación stock
  - Cantidad de artículos: [28]
  - N.º de lotes/series: [Empty dropdown]
  - Código de barras: [Empty text field]
  - Cantidad máxima: [Empty text field]
  - Artículo: [10001]
  - Última actualización el: [Empty text field]
  - Netivo: [Empty dropdown]
  - Secuencia: [Empty text field]

At the bottom, there are four buttons: "Actualizar", "Cancelar", "Definir ubicaciones", and "Mostrar código de ubicación".
